

CyClean™

SOLIDS SEPARATOR

Solids Removal for Cooling Towers

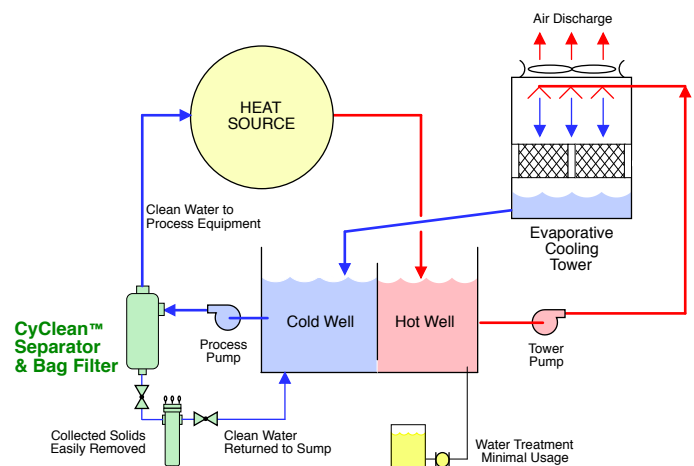

CyClean Separator with Bag Filter Purge Vessel

14" separator installed at Ford Motor Co. in Sterling Heights, Michigan to clean 4,600 GPM of process cooling tower water for their Induction Heat Treating Department.

Features zero water discharge and easy solids removal without interrupting system operation.

Cleaner process water reduces fouling of heat exchangers and saves on chemical usage in the cooling tower.

Call us at 1-800-525-8173 and ask for bulletin CY1M905 or visit www.drycoolers.com for more information
